To Whom It May Concern:

I am writing in support of Ami Scheidler, who worked for Parksite, Inc. as a Senior Graphic Designer from January 24, 2005 to April 30, 2008. Ami is a true professional with a tremendous ability to create something from concept and exceed expectations in the finished product.

She truly is a committed and dedicated individual who takes her profession very seriously. She has an individual standard of commitment that far exceeded the expectations we had for her, and is very enthusiastic when taking on new projects and working in a fast paced environment.

If we had not been compelled to restructure our organization, due to economic constraints, Ami would be continuing to produce successfully at Parksite. I would unhesitatingly recommend her for any position in the graphic design field. Please call me if I can further clarify Ami Scheidler's abilities.

Sincerely,

A handwritten signature in black ink, appearing to read "T Underwood".

Troy Underwood  
Manager
